## Time Is Here Again For Canal Pt. To Pay For Lights

To Canal Point Citizens:  
Are you enjoying the street lights that were installed almost two years ago?  
Did you kick in a little cash when members of the Lions Club—the sponsoring organization—came around two years ago, to take up a collection to pay for the lights?

If you are enjoying the lights and would like to see them continue burning, it is suggested that you prepare yourself to help, aid and assist when members of the Lions Club call on you in the immediate future.

There are a lot of folks getting advantage of the street lights who didn't kick in on the first go 'round. These folks will be given an opportunity, so say members of the Lions committee, to help fill up the kitty this time.

It will take in the neighborhood of \$500 to pay for the lights for another 24-month period, Lions club workers said.

Of course, if folks don't want to chip in and pay the \$500 the Lions Club boys aren't under any obligation to the "Power Company." They are merely acting as agent between the citizens and the police-furnishing concern. If the money isn't forthcoming back into darkness we go!

Grady Echols, G. L. Sims and D. L. Hooks are members of the light committee.

### WHY I DON'T WRITE

I can make you a rhyme  
Any day, any time,  
Even though I'm at work or at play;  
But the kind of a verse  
Depends most on my purse,  
For it's that makes me gloomy or gay.

When my crop seems to tell  
I'll have plenty to sell,  
To pay all the bills that I owe;  
And plenty to last  
Till the year has gone past,  
Then my spirit with joy is aglow.

But when things look so blue  
I don't know what to do,  
No joy my sad heart will then know;

For I'm thinking of those  
Who need food and need clothes,  
As well as the friends that I owe.

So if you don't see  
Any verse that's from me,  
You may know that things look rather blue;  
For when every thing's right,  
I can make any night,  
A rhyme that I hope pleases you.

I will try this next week  
To have something to speak,  
That may be of some value to heed;

For I hope I can be  
Of some worth (and that free),  
To the folks who my rhymes like to read.

—Frank Friend.

## Cinematic Chatter

By Malcolm Millar

So you think you've heard everything? Then listen to this: The Hollywoodites boast a glamour gal who can pitch dangerous curves more ways than one that once decided upon a career as a professional baseball player. What's even more astounding, there are times when she wishes she had done just that! Whose the gal in question? Lovely Adele Jergens. "Who ever heard of a ball player getting up at five o'clock in the morning to rush to the ball park and have his hair dyed and his makeup put on?", queries the lucious lass. However Adele does admit that there are times when she is glad she chose an acting career. The pay's good—the work is not seasonal—and one gets to meet such interesting people. Miss Jergens, who ranks as one of Hollywood's most beautiful damsels, confines her movie making to Technicolor chores. She's what folks in show business term a "visual" actress—a player who should be seen to be properly appreciated. The gal who makes a tidy income playing other women on the screen entered show business at fifteen, working in summer musicals between school terms. Later she became a model and eventually she won a reputation as one of New York's top showgirls. Not too many years ago she was name the world's most beautiful blonde at the New York World's Fair. Strangely enough Miss Jergens believes she owes her screen career to the fan magazine. Seems as a teen-ager she used to read the magazines in her favorite beauty parlor. She noticed how all the movie stars were reported to live in fabulous mansions, sleep 'til noon and have footmen and butlers. So what happened? Now that Adele is a star in her own right, she gets up at five A. M. . . . She lives in a two-room apartment, minus a butler, and she drives her own medium priced convertible. "You can also add that I have a husband whose television and stage career keep him in New York," says the beautiful Belle from Brooklyn, "while movies keep me in Hollywood. But Brooklyn's loss is Hollywood's gain. And who knows? If Adele Jergens had pursued that baseball urge, she

## Christian Science Group Of Canal Point

"ARE SIN, DISEASE, AND DEATH REAL?" is the subject for services in all Christian Science churches next Sunday. The power of Mind, God, to dissolve human belief in all disorders and bring healing will be stressed.

A verse from Romans (8: 2) provides the Golden Text: "The law of the Spirit of life in Christ Jesus hath made me free from the law of sin and death."

Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "The cause of all so-called disease is mental, a mortal fear, a mistaken belief or conviction of the necessity and power of ill-health; also a fear that Mind is helpless to defend the life of man and incompetent to control it" (p. 377).

Included in Bible passages is the following from Psalms (103: 2, 3): "Bless the Lord, O my soul, and forget not all his benefits: For he hath forgiven all thine iniquities; who healeth all thy disease."

Do you have Series E Defense Bonds coming due this year?

# Here's a money-earning opportunity for you

Now—a new law lets your maturing Series E Bonds go on earning for you ten years longer! And you don't have to do a thing!

ARE YOU one of those patriotic citizens who began buying—and holding—Series E Bonds ten years ago? Now your government is going to reward your faith with a chance for your bonds to earn extra money—over and above what you'd expected!

According to the bill passed by Congress last spring, it is now possible for your United States Series E Bonds to continue earning interest ten years longer than was originally planned.

Therefore, if you started an automatic bond saving plan, and helped your country at the same time, you can look forward to ten years more of effortless earning from the bonds you bought!

For example, a Series E Bond which cost you \$18.75 in 1942 will pay you \$25 in 1952. But

if you hold that bond ten extra years, until 1962, it will pay you \$33.33, an average interest of 2.9%.

And there is nothing for you, as a bond holder, to do. You need not exchange the bonds you have. You need not sign any paper, fill out any form. You simply keep your bonds as you have been keeping them.

You may still redeem any Series E Bond at any time after you've owned it for sixty days. (The tables on this page show what you can get for it.) But, unless you really need the cash you're much better off to hold your bonds; they are a paying method of saving. Bonds are safer than cash! Cash is too easily spent on nonessential things. And if you lose or accidentally destroy it, you're out that much money. But when you have cash in Defense Bonds, you're more apt

to hold on to it. And if your bonds are lost or destroyed, the Treasury will replace them for you at no cost or loss to you.

The cash you have in bond savings is safe and solid; and it's steadily growing toward a sum big enough to buy something really worth while when the proper time comes—a home, a business, a retirement fund, an education for your children.

So if you have bonds coming due, take advantage of this new offer of your government—just sit back and let them go on making money. Meanwhile keep adding to your savings by buying more United States Defense Bonds regularly—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

If you want to be paid your interest as current income—

The new law also allows you to exchange your Series E Bonds, in blocks of \$500 or more, for Special Series G Bonds which pay interest semiannually at the rate of 2½% per year. For full details, ask at any Federal Reserve Bank or Branch.

Here's how Series E Defense Bonds earn the first 10 years
